Practical – 1

AIM : Demonstrate Class, Properties, Methods and Objects

Output:

---

class properties

type :- 500000
average-speed:- 20EC in bike
price :- 500000
model :- 20EC in Electric
inside Electric class
inside bike class

AIM : Demonstrate how to work with JSON File

Output:

AIM : Do Spoural Registration Form Validation (Error object and try…catch..)

Output :

About JSON File

first-name:- MAHEK
last-name:- SIROYA
location: Gujarat
gender: Female
ID: 21it152

Spoural Registration Form

Name:- [MAHEK]

Id:- [21IT152]

Branch [it]

[Submit]

success

Spoural Registration Form

Name:- [MAHEK]

Id:- [ ]

Branch [it]

[Submit]

Error: NULL Value Not allowed

Spoural Registration Form

Name:- MAHEK

Id:- 21IT152

Branch EC

Submit

Error: Enterd branch is invalid

Conclusion :

In this practical I have learned how to perform various Object making likes Error Object, JSON Object and Try-catch method also learn how to demonstrate class, properties and work with JSON files and many types of Error also learn in the JavaScript.
